Nakamoto Coast

Along the Nakamoto Coast, during the transition from high tide to low tide, the current flows from left to right when facing the sea from the beach. From low tide to high tide, the current flows from right to left. However, when waves are high, a strong current always flows from left to right. The ocean currents also change due to a variety of other factors.

Swimming is not recommended, but if you do swim, always wear a life jacket and swim in pairs.

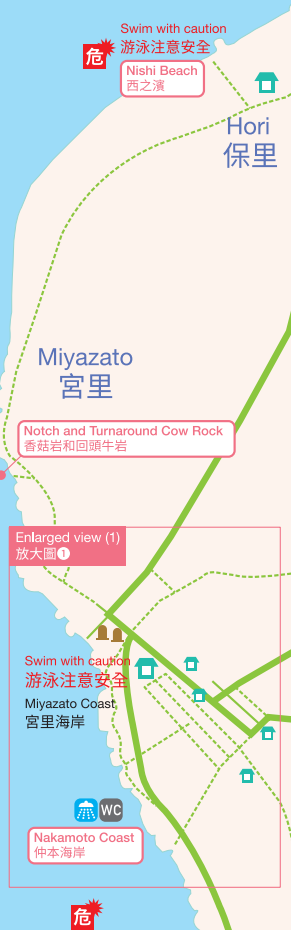

It's best to swim two hours before and after low tide when the current is weak.

仲本海岸

仲本海岸從滿潮到退潮時，由海灘望向大海，會從左流向右。從退潮到滿潮時，則從右流向左。但當波浪高漲時，通常會發生從左到右的強大水流。此外，海流會因為各種要素影響而變化。

※不建議游泳，如要游泳，請務必穿著救生衣，並以兩人一組游泳。

潮流較弱的退潮前後2小時較適合游泳。

For Visitors to the Taketomi Town Islands

Every year, many people visit the islands of Taketomi Town.

While tourism is an industry that supports the town, it also places a burden on the natural environment and the daily lives of residents.

To preserve the islands' irreplaceable treasures for the future, Taketomi Town promotes "responsible tourism."

Respect the daily lives of the islanders

Please be considerate of the daily lives of the islanders both during the day and at night.

Show respect for island culture

Please refrain from entering sacred sites (known as utaki, otaki, or on).

Take your trash with you whenever possible

Please take your trash with you along with your memories and comply with proper waste separation.

Take care of your own health

Be careful of heatstroke and sunburn.

Prioritize safety at sea

When swimming, ensure you are in good physical condition and have the proper equipment.

Prioritize safety in the mountains

Please be careful not to destroy nature and be prepared and equipped to protect yourself.

Avoid excessive exposure and wear clean footwear

Please wear clothing when not on the beach.

Drive kindly for animals

Traffic accidents involving rare animals have become a problem.
